

2016 Chapter Board

We hope to see you at our annual event. Our Board of Directors and volunteers have worked very hard to make this annual event a success and we hope the time that you spend with us is valuable to you and your company.

Jack Black - Chapter Chairman

DLS Electronic Systems, Inc.

Roger Swanberg - Vice-Chair

DLS Electronic Systems, Inc.

Jerry Meyerhoff - Secretary

JDM Labs

Ray Klouda – Membership

Elite Electronic Engineering

Tom Braxton - Program Chair

Shure Incorporated

Bob Hofmann - Treasurer / Scholarships

Hofmann EMC Engineering

Roy Leventhal - Chicago Section Rep

Leventhal Design & Communications

Tom Braxton -Angel

Shure Incorporated

Frank Krozel - Webmaster

Electronic Instrument Associates Central, Inc

Frank Krozel - Special Events

Electronic Instrument Associates Central, Inc

The Chicago Chapter of the IEEE EMC Society Presents Our 2016 EMC Mini-Symposium

May 3, 2016
Holiday Inn, Itasca

**ADVANCED
PROGRAM**

**Annual Chicago
IEEE EMC MiniSymposium**
May 3, 2016
Holiday Inn - Itasca, IL

**Bruce Archambeault and Lee Hill present
The Bruce-Lee Show!**

Presentations include:

- The Ground Myth
- Using Real-time Spectral Analysis to Visualize, Measure, and Troubleshoot EMI Signals in a Completely Different Way
- Decoupling PCB's for EMC and Functionality in the Real World
- Practical RF Measurement and Probing Tools & Techniques for EMC Troubleshooting and RF Test Maintenance

If you are working in the EMC field, our MiniSymposium is for you. At our MiniSymposium, you will come away with new ideas about troubleshooting techniques, specification updates and a better understanding on how to measure critical parameters.

While there, browse tabletop booths of manufacturers, EMI/EMC test houses, and more to increase your knowledge base of suppliers in this industry as well as look at the local test houses in the area. Meet with fellow EMC Engineers and learn more about how our chapter can assist you in your daily challenges.

For details on exhibits and attendance at our annual event, visit www.emcchicago.org/sectfiles/events.htm or email Frank at frank@electronicinstrument.com

We look forward to seeing you.
Frank Krozel, MiniSymposium Chairman
tel: (630) 924-1600

IEEE EMC SOCIETY www.emcchicago.org

How we started...

Some 19 or so years ago, our chapter recognized that although there was an active EMC Society presence locally, the area did not have any shows that were EMC-specific. Although there is a yearly International Symposium, most local people did not attend because of budgets etc. A close group of us got together and started what eventually became this annual event. It is interesting that that same core group of people have also been on the Board of Directors for over 20 years now, and through their efforts, we have organized two major International IEEE EMC Symposiums in Chicago, and to this day, are still active in the local IEEE EMC Society chapter.. You will find most all of them listed on the back panel as our Board of Directors.

Additional Support

This program could not have been a success without our many volunteers. Do thank them for their efforts to make this yearly event a success.

What the MiniSymposium is.. Speakers and Topics

We strive to have topics and speakers from our industry that will assist you in your daily job. To that end you should be able to take away something that you can use immediately in your job.

What the MiniSymposium is.. Tabletop vendors

In addition to the many technical presentations, you will have the opportunity to meet with vendors of the actual equipment used in EMC pre-Compliance and Compliance testing. We also have local EMC/EMI Test Labs there so do plan to browse the tabletop arena!

What the MiniSymposium is.. "Two Speakers"

This year, we have two major speakers. Bruce Archambeault and Lee Hill present the

"Bruce – Lee show"

Electronic Instrument Associates Central Inc

ETS-Lindgren, Inc.
